Each Owner shall be responsible for restricting the movement of its animals to that Owner's Lot or Lots. Any stable, barn or run area must be constructed of materials similar in quality to the main residence. Common plywood is expressly prohibited. Setbacks will be observed on stable and run areas. The construction and maintenance of the stable and run areas as well as the raising and keeping of animals shall at all times conform to the then current rules and regulations related to condition of premises and health and safety of animals and persons promulgated by the Texas Department of Health, or successor authority, for the licensing of riding stables, whether or not such licensing is actually required in any specific situation. Specifically, the stable barn and run areas must be kept sanitary and reasonably free of insects, refuse and waste at all times.

3.18 **Gardening:** Gardening, including row crops, will be permitted, provided such activity is located at the rear two-thirds of the Lot. Orchards and vineyards may be located anywhere on a Lot.

3.19 **4-H; FFA:** If any member of the household is under the age of 19 and is a bona fide member of a 4-H Club or the Future Farmers of America ("FFA"), or similar organization, then one animal per each such member (but not in excess of three) shall be permitted for the purpose of raising such animal(s) for competition or as part of a club project. Provided however, that such animal(s) shall be kept in a sightly well-maintained pen or other enclosure, and the Lot shall be kept clean and in a sanitary condition. Accepted FFA animals include rabbits, cows, goats and sheep. No swine will be permitted under any circumstances or programs. These permitted animals may be considered in "addition to" the density requirements described in Section 3.16.

3.20 **Land Clearing:** In an effort to preserve the natural beauty and integrity of the Property, no Lot shall be clear cut of all native foliage and/or vegetation. Xeriscaping is strongly recommended by Declarant.

3.21 **Landscaping:** No fence, wall, hedge, shrub, or tree planting which obstructs sight lines at elevations between three (3) and six (6) feet above the surface of any street or roadway shall be planted or permitted to remain on any corner Lot within the triangular area formed by the curb lines of such intersecting streets and a line connecting such curb lines at points twenty-five (25) feet from their intersection, or, in the case of a rounded corner, from the intersection of the curb lines as extended. The same sight line limitations shall apply on any Lot within ten (10) feet of the intersection of a street curb line and the edge of a driveway or alley. No trees shall be permitted to remain within such distances of such intersections unless the foliage line is maintained at a height of more than six (6) feet above ground level. Anything herein to the contrary notwithstanding, the Architectural Committee may allow a ten (10) foot setback from a side street if the Architectural Committee, in its sole discretion, so elects.

3.22 **Maintenance of Lawns and Improvements:**

(a) In the event the Owner of any Lot shall fail to maintain such Lot and the Improvements situated thereon in a neat and orderly manner, the Architectural Committee, its agents and employees, shall have the right to enter upon such Lot and to repair, maintain, and restore the Lot and exterior of any and all buildings and other Improvements erected thereon, all at the expense of Owner.

(b) All plants, herbs, trees, grass and landscaping on a Lot shall be maintained in a trimmed and neat condition at all times. In the event the Owner of a Lot fails to properly maintain such landscaping, the Architectural Committee shall be entitled to do so, all at the Owner's expense.

(c) The Architectural Committee shall have the sole authority to make a determination as to the acceptability of the maintenance and appearance of any Lot, and the Architectural Committee shall have the absolute discretion and authority to determine the necessity for required maintenance of Lots within the Subdivision. No unsightly Lots shall be permitted at any time.

3.23 **Dwelling Size:** Unless such requirement is expressly waived in writing by the Architectural Committee, any single family dwelling constructed on a Lot must have a floor area of not less than the square footage provided below for the indicated Lots, exclusive of open and closed porches, terraces, patios, balconies, driveways, and garages.

<u>Lot Size</u>	<u>Minimum Heated and Air Conditioned Square Footage</u>
Lots less than two acres	1800 square feet minimum
Lots two acres or larger	2000 square feet minimum
Lots with frontage on Lampasas River	2000 square feet minimum

This requirement will only be waived by the Architectural Committee in unusual circumstances where the characteristics of a Lot do not reasonably enable compliance with this requirement.

3.24 **Masonry Requirements:** The exterior of single story residences shall be constructed one hundred percent (100%) of brick, stone, or a combination of the two. The first floor of two story homes will be the same, and at least fifty percent (50%) of the front wall of the 2nd floor, will be constructed of brick, stone, or other masonry materials. Any siding used must be concrete based material. In computing these percentages, (a) all gables, windows and door openings shall be included in the total area of the exterior walls; and (b) masonry used on fireplaces, chimneys and walls of an attached garage may be included in the computation as masonry used.

3.25 **Garages and Driveways:** All residences must have a minimum of an enclosed and attached two car, side-entry garage that shall be oriented so that the garage doors do not face the front of the Lot and are not visible from a road or right-of-way. An exception is made for additional detached garages. Garage doors on detached garages may face the road. Detached garages must generally match the residence. Detached garages may not be in lieu of an attached garage.

The location of all driveway cuts shall be subject to the regulations, ordinances and codes of the governmental entities with jurisdiction over the Property. All driveways shall be constructed of asphaltting material or better and subject to Architectural Committee approval. All driveways shall be a minimum width of twelve (12) feet.

3.26 **Outbuildings:** An accessory building may not be built until construction of the residential dwelling has commenced. Owners are to provide the site location, plans, and list of building materials for an accessory building for approval by the Architectural Committee. The location of an accessory building/structure will be four-corners staked for consideration by the Architectural Committee prior to construction. Any accessory building must be built on a concrete pad and must be located at the rear of the property. These buildings, shops, storage, recreational vehicle storage, etc. can be all metal constructed or stick built, and will be constructed of all new materials. The building, as close as possible, will match the color of the exterior of the residential dwelling.

Prefabricated storage buildings require prior approval by the Architectural Committee and must be new and planned to be placed on a concrete slab.

Carports and recreational vehicle covers are allowed provided they are attached to a concrete slab and are constructed using all new metal material.

3.27 **Roofing Materials:** All roofing materials shall meet or exceed 20 year warranty composition shingles.

3.28 **Unfinished Structures:** No structure shall remain unfinished for more than one (1) year after construction has begun.

3.29 **Setback Requirement:** No building shall be located on any of the Lots nearer to the front lot line or nearer to the side lot line than the minimum setback lines shown on the recorded plat of the Subdivision.

3.30 **Construction Activities:** Notwithstanding any provision herein to the contrary, this Declaration shall not be construed so as to unreasonably interfere with or prevent normal construction activities during the construction of Improvements by an Owner (including Declarant) upon any Lots within the Property. Specifically, no such construction activities shall be deemed to constitute a nuisance or a violation of this Declaration by reason of noise, dust, presence of activities or construction machinery, or posting of signs or similar activities, provided however, that such construction is to be pursued to completion with reasonable diligence and conform to usual construction practices in the area. In the event of any dispute regarding such matters, the determination of the Architectural Committee shall control. A temporary waiver of the applicable provisions may be granted by the Architectural Committee, provided however, such waiver shall be only for the reasonable period of such construction.

3.31 **No Warranty of Enforceability:** While Declarant has no reason to believe that any of the restrictive covenants or other terms and provisions in this Article III or elsewhere in this Declaration are or may be invalid or unenforceable for any reason to any extent, Declarant makes no warranty or representation as to the present or future validity or enforceability of any such restrictive covenants, terms or provisions. Any Owner acquiring a Lot in reliance on one or more of such restrictive covenants, terms or provisions shall assume all risks of the validity and enforceability thereof, and, by acquiring the Lot, agrees to hold Declarant harmless therefrom.

3.32 **Fuel Tank:** No aboveground or underground storage tank (except small aboveground tanks for propane, butane or water for residential use) or other structure or facility for the storage of combustible fuels or materials shall be placed or maintained on any Lot unless expressly authorized in writing by the Architectural Committee, which authorization shall be determined in its sole discretion. All permitted tanks must be located on the rear one-half of the Lot.

3.33 **Prohibited Activities:** No business, professional, commercial, or trade venture or activity shall be conducted on any of the Lots; provided, however, that model homes and/or sales offices may be constructed and maintained by Declarant, its successors and assigns, and any builder with whom Declarant so contracts, in connection with the development and sale of Lots and the construction and sale of houses in the Subdivision. Subject to the prior written consent of the Architectural Committee, which consent is and shall be expressly required, home offices to which the general public is invited, incidental to owner's business, may be maintained within such Owner's residence, so long as activities conducted in connection with such home office do not become an annoyance or nuisance to the neighborhood, as determined in the sole and absolute discretion of the Architectural Committee.

3.34 **Short Term Vacation Rental:**

Homes may be leased by Owners for terms of not less than six months.

Overnight, weekly, and/or short term vacation rental is strictly prohibited.

## **ARTICLE IV USE RESTRICTIONS**

4.1 **General:** The Property shall be improved and used solely for single family residential use. The only Common Area in Phase Two will be the River Place Phase Two entrance at FM 2313. This entrance will be designed, constructed, and maintained by the Declarant until such time that 90% of the lots have been sold. At the time that 90% of the lots have been sold, the Declarant will no longer provide water for vegetation, electricity for lighting, or landscaping upkeep of the subdivision entrance.

## **ARTICLE V ARCHITECTURAL COMMITTEE**

5.1 **Membership of Architectural Committee:** The Architectural Committee shall be comprised of three Members who are the Declarant and two additional voting members who will be appointed by the Declarant. The Declarant may at will assign replacement voting members as deemed appropriate. The initial members of the Architectural Committee shall be Declarant L. L. (Tad) Davis, and voting members Paul Inman and Lia Davis.

5.2 **Action by Architectural Committee:** Items presented to the Architectural Committee shall be decided by majority vote of the Voting Members. Except where otherwise expressly provided, the Architectural Committee's approval shall not be unreasonably withheld or delayed. If the Committee fails to respond in writing to a request for approval specifying its objections within thirty (30) business days, such approval shall be deemed to have been given.

5.3 **Advisory Members:** The Voting Members may from time to time designate Advisory Members.

5.4 **Declarant's Rights of Appointment:** Until ninety percent (90%) of the Lots have been sold by Declarant, Declarant, its successors or assigns shall have the right to appoint and/or remove members of the Architectural Committee. Thereafter, such rights may be exercised by the vote of the Owners of a majority of the Lots.

5.5 **Adoption of Rules:** The Architectural Committee may adopt such procedural and substantive rules, not in conflict with this Declaration, as it may deem necessary or proper for the performance of its duties, including, but not limited to, a building code, a fire code, a housing code and other similar codes. Each Owner shall comply with the Committee Rules as the same may be amended from time to time. Failure to comply with said rules shall constitute a default of this Declaration. Any Owner, at its sole expense, and/or the Architectural Committee may seek any of the remedies set forth herein for default of this Declaration.

5.6 **Review of Proposed Construction:** Whenever in this Declaration the approval of the Architectural Committee is required, the Architectural Committee shall have the right to consider all Plans and Specifications for the particular Improvement or proposal in question and all other facts which, in its sole discretion, are relevant. Except as otherwise specifically provided herein, prior to the clearing of any Lot or the commencement of any construction of any Improvement on the Property or any portion thereof, the Plans and Specifications therefore shall be submitted to the Architectural Committee and construction thereof may not commence unless and until the Architectural Committee has approved such Plans and Specifications in writing. The Architectural Committee shall consider and act upon any and all Plans and Specifications submitted for its approval pursuant to this Declaration and perform such other duties assigned to it by this Declaration, or as from time to time shall be assigned to the Architectural Committee by the Declarant, including the inspection of construction in progress to assure its conformance with approved Plans and Specifications. The Architectural Committee may review Plans and Specifications submitted for its review and such other information as it deems proper. Until receipt by the Architectural Committee of any information or document deemed necessary by the Architectural Committee, the Architectural Committee may postpone review of any Plans and Specifications submitted for approval. The Architectural Committee shall have thirty (30) business days to approve Plans and Specifications, otherwise such Plans and Specifications shall be deemed accepted, except to the extent they are in clear and obvious violation of the Restrictions. The Architectural Committee shall have the authority to disapprove any proposed Improvement based upon the Restrictions, and the decision of the Architectural Committee shall be final and binding so long as it is made in good faith. The Architectural Committee shall not be deemed responsible for reviewing any proposed Improvement, nor shall its approval of any Plans or Specifications be deemed approval thereof from the standpoint of structural safety, engineering soundness, or conformance with building or other codes.

5.7 **Variance:** The Architectural Committee may grant variances from compliance with any of provisions of this Declaration or the other Restrictions when, in the opinion of the Architectural Committee, in its sole and absolute discretion, such variance will not impair or detract from the high quality development of the Property and such variance is justified due to unusual or aesthetic considerations, topographic or other hardship or similar circumstances. All variances must be evidenced by a written instrument and in recordable form. When approved, the variance must be signed by the Declarant and at least one voting Member of the Architectural Committee. The granting of such variance shall not operate to waive or amend any of the terms and provisions of the Restrictions applicable to the Lots for any purpose except as to the particular property in the particular instances covered by variance, and such variance shall not be considered to establish a precedent or future waiver, modification or amendment of the terms and provisions hereof.

5.8 **Actions of the Architectural Committee:** The Architectural Committee may, by resolution unanimously adopted in writing, designate one or two of its Members, or an agent, to take any action or perform any duties for and on behalf of the Architectural Committee. In the absence of such designation, the vote of a majority of all Voting Members of the Architectural Committee taken without a meeting shall constitute an act of the Architectural Committee.

5.9 **No Waiver of Future Approvals:** The approval or consent of the Architectural Committee to any Plans or Specifications for any work done or proposed, or in connection with any other matter requiring the approval or consent of the Architectural Committee, shall not be deemed to constitute a waiver of any right to withhold approval or consent as to any Plans or Specifications, or other matter whatever, subsequently or additionally submitted for approval or consent by the same or a different person.

5.10 **Work in Progress:** The Architectural Committee, at its option, may inspect all work in progress to ensure compliance with approved Plans and Specifications.

5.11 **Non-liability of Architectural Committee Members:** Neither Declarant, the Architectural Committee, nor any Member thereof, shall be liable to any Owner or to any other person for loss, damage or injury arising out of or in any way connected with the performance of the respective duties of Declarant and the Architectural Committee under this Declaration, even if the result of such parties' negligence, unless due to the willful misconduct of the Architectural Committee or its Members, as the case may be. Neither Declarant, the Architectural Committee, nor its Members shall be liable to any Owner due to the construction of any Improvement within the Property.

5.12 **Address:** Plans and Specifications and requests shall be on 8 ½" X 11" (or) 8 ½" X 14" paper and submitted in writing to: Architectural Committee, P.O. Box 12, Kempner, Texas 76539 or such other address as may be designated by Declarant, its successors and assigns, from time to time.

## ARTICLE VI EASEMENTS

6.1 **Reserved Easements:** All dedications, limitations, restrictions and reservations on the plat and all grants and dedications of easements, rights-of-way, restrictions and related rights made by Declarant prior to the Property becoming subject to this Declaration shall be construed as being adopted in each and every contract deed or conveyance executed or to be executed by or on behalf of Declarant conveying any part of the Property. Declarant reserves the right to make changes in and additions to said easements and rights-of-way for the purpose of most efficiently and economically developing the Property. Further, Declarant reserves the right, without the necessity of the joinder of any Owner or other person or entity, to grant, dedicate, or otherwise create, at any time or from time to time, rights-of-way and easements for public utility purposes (including, without limitation, gas, water, wastewater, cable television, electricity, internet, telephone and drainage), in favor of any person or entity, along and on either or both sides of any Lot line, which said easement shall have a maximum width of 25 feet on each side of such Lot line.

6.2 **Installation and Maintenance:** There is hereby created an easement upon, across, over and under all of the Property for ingress and egress in connection with installing, replacing, repairing and maintaining all utilities, including, but not limited to water, wastewater, gas, internet, telephone and electricity, and appurtenances thereto, subject to the restrictions below. By virtue of this easement it shall be expressly permissible for the utility companies and other entities supplying such utility services to install and maintain pipes, wires, conduits, service lines or other utility facilities or appurtenances thereto, (collectively, the "Utility Improvements") on, above, across and under the Property within the public utility easements from time to time existing and from service lines situated within such easements to the point of service on or in any Improvement. Notwithstanding any provision contained in this section, no Utility Improvements may be located on the Property until such location is approved by Declarant or the Architectural Committee, which approval may be determined in their sole and absolute discretion. The owner of the subject Lot must also consent in writing if such easement extends more than ten (10) feet into the Lot. At such time as the Utility Improvement is placed upon the Property, the related easement shall be limited to such location as determined by Declarant or the Architectural Committee.

6.3 **Drainage Easements:** Each Owner covenants to provide easements for drainage and water flow as contours of land and arrangement of Improvements approved by the Architectural Committee thereon require. Each Owner further covenants not to disturb or displace any trees or other vegetation within the drainage easements as provided in this Declaration and shown on the plat. There shall be no construction of Improvements, temporary or permanent, in any drainage easement, except as approved in writing by the Architectural Committee.

6.4 **Surface Area:** The surface of easement areas for underground Utility Improvements may be also used for planting of shrubbery, trees, lawns or flowers. However, neither Declarant, the Architectural Committee nor any supplier of any utility service using any easement area shall be liable to any Owner for any damage done by them, or their respective agents, employees, servants or assigns, to any of aforesaid vegetation as a result of any activity relating to the construction, maintenance, operation or repair of any permitted utility related facility in any such easement area.

No amendment by Declarant shall be effective until there has been recorded in the Real Property Records of Lampasas County, Texas, an instrument executed and acknowledged by Declarant and setting forth the amendment. Such right of enforcement shall include both damages for, and injunctive relief against, the breach of any such provision.
